Thanks Ben,

No doubt he represents a majority opinion. Maybe not the loudest but a majority.

Ben, I was happy to have the opportunity to have a brief word with you at the close of last evenings CAG meeting. The Westlake /Bridgeton Landfills have no quick,easy solutions. The (Maryland Heights) " Moms" and now the CAG have apparently decided BMAC is their new poster child. Allowing for what good they may have accomplished their behavior is typical extremist/zealot. There are those of us that recognize that. We also want to let you and your team know we are grateful for your quick action and professional approach in providing a timely rebuttal to the assault on BMAC. This will be a long drawn out affair but at least now we all are all working towards a solution. Your efforts in this process are appreciated.
